Workingmen Returning to the "Old Country."

MANY OF THEM STRIKERS.

Railroads and Steamship Lines Making the Cheapest Rates Ever Known to Liverpool.

NEW YORK, July 18.—Dozens of men, who say they have been on a strike, have been making inquiries at local steamship offices within the last few days, expressing their intention of returning to the "Old Country" in case the strike was a failure.

There are half a dozen interesting phases of the present situation, and there is much food for thought in the depletion of the standing army of the unemployed in this country by the return of thousands of workers to their homes abroad. It is estimated that before long labor will be at a premium, instead of a discount, and there are not a few who figure on a season of prosperity as a consequence of the return to Europe of thousands who have been in the past six months unsuccessful candidates for employment.

At the present time it is possible to go from New York to Liverpool, London or Queenstown for \$10 on two great lines. This, of course, is a steerage rate, there being no cut in first or second cabin rates. One line offers to deposit passengers in Paris for \$18, and the other line will do the same for \$17.25. Italian customers bid for from New York to Turin for \$23, and the railroads are offering a through ticket from Chicago to Turin, Italy, for \$39. Never before have the rates been so low, and it is small wonder that the thrifty foreigners flock to take advantage of the present rates.

After the Debs-Pullman strike was declared off, a rush of men naturally followed for European passage. Local steamship agents also say that there is no doubt of a heavy exodus to all parts of Europe.

"Times are much better on the other side just now," said a local agent today. "We have sent abroad several thousand miners from Montana and Idaho, who have been attracted to the rich gold mines in South Africa."

INJURIES NOT FATAL.

The Condition of William Phillips, the Timmer.

Wm. Phillips, better known as "Dad" Phillips, who fell from a school house at Georgetown yesterday, was brought to the city on the Lexington branch train last night and is being cared for by Dr. Bronson in room No. 2 over Maj. Beck's store.

The many friends of the unfortunate gentleman will be glad to know that his injuries are not as serious as first reported. His head was cut and left arm broken, but no ribs were fractured, and it is now thought his internal injuries are light, if he sustained any at all.

In falling Mr. Phillips' left hand was plunged into a fire-pot of live coals, and as a result the member was quite badly burned. His left side was also badly bruised, and it will probably be several days before he is seen upon the streets again.

His son, Ed, has been telegraphed for by his house, and was at Public when last heard from. "Dad" is receiving every possible attention at the hands of sympathizing friends and bears up well under his affliction.

A MORNING BLAZE.

Residence of Mrs. Taube Gutt by Fire This Morning.

A one-story frame dwelling owned and occupied by Mrs. Taube, widow of a cigar maker, at the northwest corner of Lafayette and Thirteenth streets, was gutted by fire about 3 o'clock this morning.

The blaze is believed to have been of incendiary origin, and is attributed to the fact that a couple of females objectionable to the community roomed at the house.

The roof was burned from the structure, and it was badly gutted throughout, but nearly all of the household effects were saved.

Mrs. Taube had \$800 insurance on the house and \$200 on the furniture in the Hartshorn & Landmann agency, which will more than cover the loss.

BALDWIN BLAMED.

C. H. Streit Censures the Manager of the Gazette Wrongfully.

A. C. Baldwin, manager of the Gazette, is in receipt of a letter from C. H. Streit, the former manager of the paper, who is now serving a two-years' sentence in the penitentiary, in which communication he states that he is getting along as well as could be expected under the circumstances.

He says he believes that Mr. Baldwin could have prevented his (Streit) being sent to prison had he been so disposed, but at the same time forgiveness is granted.

The fact of the matter is Streit does the manager of the Gazette a grave injustice. He interested himself in the case from the time of Streit's arrest, and assisted him in every way possible, but the case was a dead certain one against the accused and no one in Sedalia could have saved him.

CUT TO PIECES.

Geo. McFadden, Formerly of Lexington, Killed.

Geo. C. McFadden, who was raised at Lexington, Mo., and one of the best known and most expert printers in the United States, was killed by the cars yesterday at Emporia, Kas. He fell between two cars and was cut to pieces.

He carried a Topeka Typographical Union card dated the 16th inst. Another printer accompanied him, named Marr, who has not yet been found.

McFadden had worked in Sedalia on several occasions. He was formerly a hard drinker, but took the Keeley cure and was supposed to have been cured of the habit. For several years he was a proof reader on the Globe-Democrat and was conceded to be one of the best in the country.

LATER: McFadden's companion, "Jersey" Marr, has been found and states that he believes McFadden committed suicide. They had been drinking heavily, and were beating their way on a freight train, when George threw himself between the cars and was killed.

Coal Strike Declared Off.

At a mass meeting held by the miners at Bevier yesterday they decided to declare the present strike off, everyone to get work wherever possible. A number of the striking miners will be victimized and forced to leave for other camps.

Will He Marry Her?

Mr. D. R. Smith, whose 17-year-old daughter, Miss Cora, disappeared from her home, nine miles southeast of Sedalia, last Sunday night, informed Chief of Police Kahrs last night that he believed

Ball Games Arranged.

Manager Frensdorf and Secretary Lane, of the Sedalia ball club, are negotiating with the Washington club to play here next Saturday and Sunday. Games have been arranged for the 28th and 29th with the J. L. Hudsons, for the 4th and 5th of August with the Wassermans and for the 11th and 12th with the Geo. Diehls, all three being St. Louis clubs.

A Delightful Social.

The ladies of the German Evangelical church gave a most enjoyable ice cream social at the residence of Mr. and Mrs. Peter Pehl, corner of Vermont and Wilkerson streets, last night. The lawn is one of the handsomest in the city and every person was made to feel perfectly at home.

Captured a Robber.

John Delong, of the secret service department of the Missouri Pacific, came home today from Omaha, where he yesterday arrested Ernest Sanford, alias J. B. Enos, who is charged with having robbed a passenger on Missouri Pacific train No. 351, on May 21st, at Kansas City.

Got Another Ten Per Cent.

T. G. Price today received from the receiver of the order of the Iron Hall a draft for 10 per cent of the amount due him from the funds collected by the order. This makes a total of 30 per cent that Mr. Price has received.

Animals on the Rampage.

Some unknown persons drove a bunch of cattle along Grand avenue, about 10 o'clock last night, and the animals did considerable damage by running over yards, gardens, etc., and breaking down fences and walks.

DEBS SENT TO JAIL.

The American Railway Union Officials in Prison.

THEY REFUSE TO GIVE BAIL.

They Are Charged With Violating an Injunction Issued by the Federal Courts.

CHICAGO, July 18.—Eugene V. Debs, G. W. Howard, L. W. Rogers and Sylvester Kiebler, all officials of the American Railway Union, were committed to jail yesterday afternoon by Judge Seaman in the United States court for alleged violation of the injunction issued by Judges Wood and Grosscup.

The prisoners refused to make any effort to secure bondsmen and were locked up. Debs says they will live on prison fare and make a test case.

A telegram was produced in court, sent to Debs on July 2, to North Butte, Mont. It read:

"General managers are weakening. If the strike is not settled in forty-eight hours complete paralysis will follow. Potatoes and ice are out of sight. Save your money and buy a gun."

While seated in jail awaiting the preparation of his cell, Debs said: "Well, this means a few days of rest and quiet at least. I have not had much rest for over a month, and I am badly in need of it. No, sir, we shall not give bonds. Our bonds are \$3,000 each, but we would not give bonds if they were 3 cents each. We are not posing as martyrs, neither do we ask for sympathy. The Latest Telegraphic Advice

Says: Sells Brothers' tremendous united shows are drawing immense audiences everywhere. They have doubly increased their enormous show, and exhibit in all of the large cities and inaugurated low prices this year by reducing the admission from 50 to 25 cents. It's a grand move in the right direction, and Sells Brothers are reaping a rich harvest, which they deserve. A glimpse at the magnificent street parade will convince anyone that it is the greatest show on earth.

Blockade is Raised.

ST. LOUIS, Mo., July 18.—All signs of the railway strike on the east side are rapidly disappearing. The freight blockade has been raised and the close of this week will find few traces of the two weeks of congested traffic left. Several instances of assault on railroad employees, who have taken the places of the strikers, are reported. The names of the assailants are known, and they will be put under arrest by the United States marshals as soon as found.

Not Quite Time Enough.

NEW ORLEANS, July 18.—Labor Agitators Hurley, Harrison and Sperry were committed for trial before the United States circuit court commissioner yesterday. Hurley said that if he had twenty minutes more he would have tied up every road in the city, but he had not those twenty minutes, and instead of the roads being tied up he is tied up himself.

Gompers' Opinion.

NEW YORK, July 18.—President Gompers, of the Federation of Labor, is back from Chicago. He denies that he and Debs had a quarrel and asserts that the railway strike in Illinois has been settled.

THE DEMOCRAT, SEDALIA, MO.

OFFICE, 307 Ohio Street, Telephone 22.

OFFICIAL PAPER OF THE CITY OF SEDALIA.

DEMOCRATIC STATE TICKET.

For Supreme Judge,
FRANCIS M. BLACK.

For State School Superintendent,
WM. T. CARRINGTON.

For Railroad Commissioner,
JOSEPH H. FINKS.

For Congress—7th District,
JOHN T. HEARD.

It seems that Debs' strike was largely a fight upon the older railway orders, and had it been successful the A. R. U. would have absorbed the other organizations.

Out of fifty-three strikes occurring in Pennsylvania last year—involving 17,308 persons and resulting in loss of wages to strikers of \$1,395,423—not one was successful.

The trouble with striking miners still continues, and we may expect those who urge government ownership of railroads as a cure for strikes to come forward with a similar proposition as regards miners.

The republican politicians who base their hopes of party success upon differences among democrats upon the tariff question, have doubtless forgotten the differences in their own ranks.

The last general assembly appropriated \$25,000 for the payment of criminal costs in this state during the years of 1893 and 1894. This fund is now exhausted and it is estimated that a deficiency of \$150,000 will confront the next legislature.

MEMBERS of congress will not be swift to adopt a compulsory arbitration law. The people of this country are not yet ready to have some "board" tell them when and for whom they shall work. Free-men have the right to choose their own occupations, and it is a natural and inalienable right.

THAT investigation of armor plates has knocked big holes in the reputation of the Carnegie Steel and Iron company. The great institution which has been built up by government favoritism is greedy enough to palm off defective armor upon the government, thus endangering the lives of American sailors.

THE daily papers continue to print stories of trains being stoned and men being assaulted for the "crime" of working for a boycotted railroad. These offenses are committed by men who profess to be fighting the battles of labor, but they do not seem to realize that their victims are laboring men themselves.

THE authorities should be careful not to make a martyr of Debs. He should be tried and punished for any crime he may have committed, but there should be no such excessive zeal as may produce sympathy for him. His usefulness is at an end and his power for evil is gone. It is a mistake to give him too much attention.

There is sound sense in the following paragraph from the St. Louis Chronicle: "The outlook is for an improvement in business this fall, with the resumption of business by closed factories and manufacturing houses. The interests of capital and labor alike would be best served by uniting to make the most of that prospective opportunity. Capital needs return upon its investment, labor a chance to prepare for the coming winter. If capital seeks

to 'blacklist' a large body of intelligent men it will add to the ranks of the disaffected unemployed, an act of bad policy under existing conditions."

ONE of the telegrams which is being used against Debs is said to have been sent by him to North Butte, Mont., on July 2, and reads: "General managers are weakening. If the strike is not settled in 48 hours complete paralysis will follow. Potatoes and ice are out of sight. Save your money and buy a gun."

The labor leader who will rejoice that articles like ice and potatoes "are out of sight," knowing that such increase in price will bring suffering to thousands of laboring men and their families, must be heartless, indeed, and reckless or crazy must be the man who will, at a critical time such as existed on July 2, advise his followers to "buy a gun." Such a man is an unsafe leader.

NEWSPAPERS which tell the strikers that they have made great progress and won some sort of victory for labor in the late strike are making a serious mistake. The strike was wrong and inopportune; it has been an utter failure, and has weakened, rather than strengthened, organized labor. It is folly to encourage men to make the same mistake again, by telling them they have won a great victory this time. It is far better to acknowledge the truth that the strike was a great mistake and to profit by the experience gained. The American people sympathize with men who have a real grievance, but the public does not take kindly to sympathy strikes which punish some innocent man in Missouri in order to injure some sinner in Chicago. Thus, starting without public sympathy or public endorsement, the strike has been a failure from its inception. A repetition of it should not be encouraged.

BRING IT HOME.

When great movements like the late strike occur it is right to look them fairly in the face and treat them frankly. A thing should not be commended or condemned abroad that would not be treated the same way at home.

If the strike was right in Chicago it would have been right in Sedalia.

If men may without censure or punishment ditch trains and burn cars in one place because the railroad companies insist upon using Pullman cars, they may do the same thing elsewhere for the same reason.

THE DEMOCRAT would regard such a procedure in Sedalia as a public calamity and a great wrong, and so regards similar conduct elsewhere.

The question is not one of sympathy with the Pullman employees who struck for a restoration of wages. It is the fundamental one of the personal liberty of the citizen and the rights of property.

If these same disturbances had occurred here at Sedalia and scores and hundreds of men had lost the permanent employment which brought them satisfactory wages, we would hardly have told the unfortunate men that they had won a great victory.

About all these matters the truth should be told.

The strike was a mistake to start with and wound up in utter and complete failure.

Believing it to be wrong, and knowing that it could but end in failure, the DEMOCRAT urged Sedalia railroad men to stay out of it.

That they did so is an evidence of their good judgment, and they are entitled to the congratulations of all classes of citizens who would have been injured along with them had they made the same mistake that was made at Chicago and elsewhere.

TEMPLE DEDICATED.

B. H. Ingram, of Sedalia, Officiated at Warrensburg.

The new Masonic temple at Warrensburg was formally dedicated yesterday. Past Grand Master B. H. Ingram, of Sedalia, had charge of the ceremonies, which were conducted at the lodge rooms at 10 a. m., after which a large number of Masons from Warrensburg, accompanied by their families and visitors from surrounding towns,

repaired to Pertle Springs, where a bountiful picnic dinner was served.

At 2 p. m. the orator of the occasion, Rev. Xenophon Ryland, of Lexington, delivered a brilliant address on the subject of Masonry.

The new temple is quite an imposing structure. It is built of pressed brick, with sandstone trimmings, is 50 feet wide and 100 feet long and three stories high, and with its furnishings will cost about \$30,000.

A Successful Strike.

IN A WELL WITH A SNAKE.

A Georgia Man's Experience With and Escape From a Snake.

Some days ago Mr. Early White, of South Macon, was engaged in superintending the cleaning out of wells, says the Macon Telegraph. The work had progressed for some time when the idea struck him that he ought to go down in the well and see how the work was being done. He was lowered to the bottom by a rope and bucket attached to a windlass that was used in drawing up the trash and clay from the well. The well digger who had the job in hand had come to the top to allow the proprietor of the premises to go down on his tour of inspection.

When he reached the bottom he cast his eyes upward and saw to his utter horror the head of an immense water rattlesnake protruding out of the side of the well less than six feet above his head. His hair rose on end and those chilly sensations well known to those who have been placed in such close quarters crept down his back and produced a surrendering sensation in his knees. Further and further the snake swung out from his hole between two sections of the curbing until finally he lowered himself within a few feet of the man, hissing in a threatening manner and seeming ready at every moment to spring at full length upon his victim.

Recovering himself in a moment of dire emergency, calculating closely between life and death, Mr. White called lustily to the men above to lower the bucket that he might be drawn to the top before the snake made up his mind about what he would do, having it evidently in mind to swoop down upon him. But his hope of escape by means of the bucket fell several degrees when it flashed into his mind that even if he got into the bucket before the snake plunged down on him the danger would not be over, for the reptile was so infuriated that it would strike him as he passed up to the top.

At this juncture of his distress the bucket could be seen coming downward. When it got opposite the snake he struck at it with a venom that all but paralyzed the man with increased fear, but nerving himself to the effort he jumped in the bucket when it reached him and called to the man at the helm to "snatch him up with a jerk."

This was probably all that saved Mr. White's life. Several strong men laid hands to the windlass and at the given signal from the friend in distress brought him up with such suddenness that it completely defeated his snakeship's designs and caused his strike to fall several feet below the mark of the rapidly ascending man. The snake thrust himself out with such force that he dislodged himself from the curbing and fell to the bottom.

SEDALIA WON AGAIN

The Reform School Club at Boonville Defeated.

THE SCORE WAS 13 TO 5.

The Trip Was Not a Paying One, But the Boys Were Royally Entertained.

The Sedalia ball club returned last night from Boonville, where they defeated the State Reform school nine yesterday afternoon by a score of 13 to 5.

The boys were royally entertained by Superintendent Drake, and were given an excellent dinner at the school, as well as conveyed to and from the grounds in carriages.

The school team is a very clever one and had the assistance of two Kansas City players. An admission fee of 15 cents was charged, and the receipts amounted to a little more than \$20, or about \$6 in excess of the expenses.

While on the subject of base ball the following from the Chicago Herald will be read with interest:

"Uncle" Harry Wright, of Philadelphia, chief of the staff of league umpires, who is swinging around the circle, arrived in the city Thursday and will remain during the Brooklyn series. He is satisfied with the work done by the present staff of umpires, but does not consider it perfect. "I do not think," he said, yesterday, "that the rules are strictly enforced. I would like to see the work done more uniformly. Some umpires are more lenient than others. An umpire is simply a machine. He has the rules before him and should interpret them rigidly and show no favor. He has no right to read a rule one way, while another reads it in a different fashion. All umpires should agree, but it is a matter of history that they do not. This leads to disputes which should be avoided. There is too much noisy argument allowed on the field. Only captains are privileged to argue with the umpire, yet how often four or five players rush in from the field on a close decision and make life a burden for the judge of play. Any umpire would be justified in sending to the bench a player who belittled to him from the field that he was wrong. Players only injure themselves by their constant kicking. I think that I am in a good position to speak from experience, for I have been over most of the circuit, and in every city I hear the same complaint. The Chicago club is so well disciplined that little or no complaint has been lodged against it. Anson does all the kicking and he is not a hard man to get along with.

"There are players in most of the clubs who detract from the pleasure of the game by using bad language, either in the field or on the coaching line. They are driving away patrons from the game. Another thing that in my estimation has hurt the game with the baseball public is the loud and senseless coaching resorted to by several clubs. I know personally that this is the case. Business men anxious to get rid of the cares of office work go to a game for rest and recreation. They strike one in which there is a noisy coacher and they leave disgusted. They go for rest, but have their nerves jarred by insane bellowing.

"If base ball patrons leave the games head tired they are apt not to return again. If the league intends to hold its patronage it must adopt rules to suppress this rapidly growing nuisance. I have noticed that often when the players take the field, it is the custom of the pitcher to throw the ball around the diamond. He has no business to do that. The ball is in play the instant the batter steps into the box. Frequently the umpire will stand behind the plate for two or three minutes and cry 'batter up,' while the pitcher is working out his arm. The umpire has no reason to wait. The moment the pitcher fails to deliver the ball, after he has been cautioned that the batter is ready, it is his duty to call an illegal strike on the pitcher and send the batsman to first base. That would be an object lesson for the pitcher and it would thereafter stand him in good stead. It is not allowable either for a pitcher or fielder to blacken or dirty a new ball. In case this is done the captain of the opposing team can keep on calling for new balls and not proceed with the game until a ball, spotless in every respect, is put into play. When the umpire declares a batsman out on an infield fly, the player, whether he muffs the ball or not, should be credited with a put out, and the

play should not be credited in a foot note, as is the custom of many scorers. In Thursday's game, when Foutz ran back of first to get a grounder he threw the ball to first base. A man was running for second. His play should have been to retire, if possible, the runner at second, and he had a chance to do this."

It will cost nothing to call on Hart Bros. Everything will be sold at cost for fifteen days.

SATTLEY IS HAPPY.

Other Cases Against Him Will Not Be Tried for Some Time.

Whether acquitted or convicted, the prosecution of Cashier Sattley for the part he took in the wrecking of the Kansas City Safe Deposit and Savings bank will end for several months, at least, with the trial now going on in the criminal court at Independence. Judge Wofford this morning ordered the clerk of the court to notify the jury waiting to try other cases against Cashier Sattley and President Darragh, says the Kansas City Star, that they were discharged permanently. The panel, numbering more than 100, had been ordered to return next Monday and the action of Judge Wofford means that no more bank cases will be tried at this term of court.

There are forty-four indictments against both Darragh and Sattley, eight of which were set for trial at the present term of court. It was the avowed intention of the state to take up case after case until a conviction should be obtained, but Judge Wofford's discharge of the jury checkmates that plan.

The attorneys for Sattley were much pleased at the action of Judge Wofford and will exert themselves to win the case now on trial. Next fall there will likely be a change in the office of the prosecuting attorney and if it should be desired to continue the prosecution the new prosecuting attorney would be at a disadvantage in not being familiar with the case.

The attorneys for the defense feel that they have gained at least a partial victory, as they realized that if case after case was to be tried a jury would eventually be empaneled which would bring in a verdict of guilty.

The cost to the county and state of the trial when finished, including the many continuances, will approximate \$10,000, and this is only one of the forty-four cases against Darragh and Sattley. The county court has not been pleased at the prospective drain on its treasury and several days ago requested Judge Wofford to try no more cases this summer.

A STORM PROPHET.

He Warns the People to Prepare for a Disturbance of the Elements July 22.

Gov. Stone has received a letter from A. J. DeVoe, a meteorologist of Hackensack, N. J., from which the following is taken and reproduced by the DEMOCRAT from the Jefferson City Tribune:

On the 15th of June last I wrote to the governor of Ohio and notified him that between the 25th and the 28th of June a destructive tornado would strike the extreme southwest corner of his state, and the tornado struck the exact locality on the 26th and caused \$100,000 of damage. My object in writing to you is to call your attention to the value of my system of forecasting the weather. I desire to give notice that a very severe storm will strike the western portion of your state between the 22d and the 25th of July, and there is danger of floods.

Mr. DeVoe enclosed a circular with his letter showing that he correctly forecasted all the great atmospheric disturbances of late years. His system, however, he does not explain, but he will doubtless furnish any desired information.

Too Many Goods

For these hard times. That is why Hart Bros. are reducing stock and selling at cost for fifteen days.

Dismissed the Case.

Justice Fisher delivered a free lecture last evening to Wm. Wright, who had been arrested on the charge of whipping his wife, after which the case was dismissed at the defendant's cost, with the understanding that he and his better half would dwell together in peace and harmony in future.

Swindled by a Woman.

Officers are looking for Annie Cochran, aged about 21 years, who obtained goods from Van Wagner

Bros. and Guenther Bros. under false representations. The girl claimed to be in the employ of families who dealt at the two stores, and would obtain goods for the ostensible inspection of her mistress, but once in her possession they were appropriated to her own use. It is believed she has left the city.

Sells Bros.' Astonishing Aggregation.

Its fame rests securely on a triumphal success covering almost a quarter of a century. It is worthily accorded the highest niche in the temple of American amusements, and is the strongest evidence of "the survival of the fittest." The royal road to the people's hearts is reached only through unwavering integrity and a strict adherence to fixed principles and to this end Sells Brothers' motto in organizing "The Big Show of the World" for 1894 is to excel, not only in presenting to the American public an exhibition morally more and instructive, but greater, grander in its extensive zoological, arenic and invincible special features, merged and marshaled in a glorious and unparalleled unity, embracing two hundred sterling acts in three rings and two elevated stages, equestriennes, bare-back riders, racers, thirty-horse riders, trained horses, educated ponies, trained elephants, trained hippopotami, trained seals and sea lions, grimaldis, comical clowns, jolly jesters, of all earth's illustrious mid-air and arenic champions, coming in all its entirety in three special railway trains, owned and controlled by Sells Brothers, the millionaire magnates. Remember, the price is within keeping of the times and has been reduced from fifty to twenty-five cents for everybody. The only big show that has ever exhibited for 25 cents. Watch for the grand, gorgeous parade at 10 a. m. on the day of the exhibition. Special excursion rates on all lines of travel.

1,000 pairs of pants at cost at Hart Bros.

Sent to the Poor House.

George Bryant, who was for twenty years the clerk of the Wilder house at Ft. Scott, has been sent to the poor farm of that county, says the Nevada Mail. His general acquaintance was probably as extensive as that of any man in the southwest. He was refined and highly educated man and left a luxurious home in the east to grow up with the west. His health failed and for several years he has lived on the charity of friends.

Ready to Arbitrate.

Hart Bros. have made concessions by offering their goods at cost.

Prizes for the Races.

The following prizes are offered for the matinee races at Association park tomorrow afternoon:

For the 2:30 class, Hart Bros. give a fine neck tie; second prize, E. Weise offers five bath tickets. For the 2:40 class, George W. Wright gives a pair of driving gloves; second prize, Jack Chaney gives twenty five games of pool or billiards.

Struck Out Ten.

A telegram from Kemp Grimshaw last night stated that McHenry won the game of ball at Jacksonville yesterday, striking out ten of the Rock Island team. With proper care and coaching there is material for a star pitcher in the big league in McHenry. He is a better pitcher today than any man on the pay-roll of the St. Louis Browns.—Jefferson City Tribune.

OUR STORE

AIN'T A TEN-ACRE LOT!

No! no!! It is nothing more or less than the biggest thing in Sedalia or Central Missouri in the music line—and, well, yes! we say it—we are selling more goods, getting in more cash, more goods sold on monthly payments, and much more all round solid business than all the other music houses in Sedalia combined or separate. Freight bills talk—drafts and remittances are mighty good evidence and we are not running any *Ananias racket* or *Bluffing*. We simply do the business, and we do it right on the square. Our expenses are simply awful, so the other fellows say. Well, they are awful. Awful small for the amount of our business—and the fun of it is our expenses are paid in cash. We have no time for funny business—life is too short, so we put in our time, our best licks, and all we weigh or measure in height, length, breadth or muchness, attending to business at

BAWDS IN COURT.

A Dozen of Them Told Stories Out of School in the Police Court.

Today's session of the police court was prolonged beyond the noon hour, owing to the fact that twelve bawds were arrested yesterday and had their tales of woe to unfold before Judge Bosserman this forenoon.

Eight of the twelve pleaded guilty and were fined \$10 each. Annie Brown, Minnie Knight, Mable Jackson and May Hunter pleaded not guilty, however, and the evidence in their respective cases was heard.

Annie Brown, a fairly good looking blonde, claimed that she was engaged in selling a book, and in that capacity had visited the rooms of gentlemen whose names she gave, but of course she was never guilty of the least impropriety on any of these visits.

The cross-examination conducted by City Attorney Smith was quite to the point and the defendant contradicted herself several times, the result being that she was found guilty and fined \$20. Notice of appeal to the criminal court was given.

The story of Minnie Knight was to the effect that she had just secured honest employment and intended to reform permanently, but this didn't go with the court and she, too, was fined \$20 and took an appeal.

Mabel Jackson was convicted on the testimony of Minnie Howe, and to get even the former testified to alleged criminal intimacy between Minnie and Geo. Davis, a colored sporting man of the city. Minnie denied the charge, and shed tears freely.

A \$20 fine was also assessed in the case of May Hunter, when the two latter gave notice of appeal.

The other cases disposed of were: Chas. Menefee, Robert Morrow, Emmet Harris and Clarence Whitmore, indecent exposure of person

while swimming in a pond in the western suburbs, were fined \$3 each and given a stay during good behavior.

Hub Ruble and Wm. Eagan, peace disturbers, and Fritz Himburg, disturbing the peace and resisting an officer, had their cases continued until the 20th inst.

L. E. Costello, drunk and late hours, was fined \$5, and Jas. Scroggins, for late hours, was given until 6 o'clock this evening to get out of town.

CAPT. DOUGLASS DEAD.

He Passed away at Dresden at 4:30 O'clock This Morning.

Capt. James C. Douglass, a well known resident of the county, died this morning at 4:30 o'clock at his home in Dresden, aged 68 years, 5 months and 14 days.

Captain Douglass was born in Howard county, Missouri. When he was 10 years old his father moved to Johnson county, Missouri, where Captain Douglass lived until the beginning of the late war between the states.

In 1861 he enlisted in the Missouri state guard, in which he served until he was mustered into the confederate service at Neosho, Missouri.

He was second lieutenant of Captain F. M. Cockrell's company, Second Missouri infantry, C. S. A., Col. John Q. Burbridge commanding.

Capt. Douglass was in the battles of Ison creek, Lexington, Pea Ridge, Iuka and Corinth. He was captain at Corinth when he lost a leg.

Capt. Douglass was in command of his company during the siege of Vicksburg. Although he was not in active service, he was with his company most of the time until the surrender at Blakely, near Mobile, Alabama.

In 1851 Capt. Douglass married Miss Evaline Whitsett, of Johnson county. There were born of this marriage three children, viz: Mary Ellen, who lived with her father; Catherine, married to Mr. Gresham and lives in Sedalia, and Sallie, married to Mr. McClelland and lives in Paris, Texas.

Captain Douglass in early life joined the Cumberland Presbyterian church, of which he was a consistent member throughout life.

Captain Douglass was a gallant soldier; brave to a fault, he was always at the post of duty. In private life he was the honest, upright, conscientious christian gentleman. He was esteemed and respected by all who knew him. He was an invalid for years and suffered great pain, which he bore with Christian fortitude and patience. During these years of pain and suffering his daughter, Mary Ellen, was his constant attendant and companion, lovingly and patiently ministering to his wants. The warm sympathy of the community will go out to her in her great bereavement. In Capt. Douglass' death the people lose a most worthy citizen and exemplary Christian.

The funeral will take place from the Baptist church in Dresden tomorrow morning at 11 o'clock.

MR. J. J. FREY IS THE MAN.

Items of Interest Picked Up From Various Sources for the Benefit of "Democrat" Readers.

General Manager Frey, of the Santa Fe, is just now coming in for his share of praise for the admirable manner in which he managed the big strike on his road. The Topeka Capital in a recent issue pays him the following just compliment.

"Under the rule of the receivers of the Santa Fe and the letter of Judge Caldwell to the receivers, men who threw up their jobs on the line of the road or in the shops would have been permanently out of work so far as the Santa Fe railroad is concerned and the men employed in their places would be retained and protected. The Topeka shopmen, many if not a majority of whom were personally opposed to striking, will now appreciate how much they owe to the foresight and wisdom of General Manager Frey in saving their jobs, at a time of excitement when they had resolved to strike, by closing down the shops until the road was in thorough running order. The Topeka shopmen, such at least as have not taken part in the demonstrations and public meetings addressed by notorious demagogues and anarchists for the purpose of sowing discord in the minds of employees against the officials of the road, will doubtless be restored to their places in the shops and have reason to feel grateful for the action of the company in closing down at the moment when it did close down for their welfare. Had the men thrown up their work out of foolish sympathy with the Pullman employees and without grievances of their own, their places would have been supplied and they would be today looking for new work when little work is being done and capital is averse to venturing into new enterprises. This would have been a disaster to every employe, a misfortune to the road and to the city. General Manager Frey has conducted the battle against the strikers with remarkable generalship and not the least judicious and thoughtful move was the closing of the shops in this city for the protection of the employes. At the meetings of the A. R. U. in Topeka the orators of the Close and Clemens stripe have had harsh words to say of the actions of Mr. Frey, but as it turns out Mr. Frey was a better friend to the men than the demagogues who talked so much with their hair-trigger mouths.

M. W. Cadle, chairman of the Brotherhood of Locomotive Engineers, grievance committee for the Gould system, was a passenger to St. Louis at noon today.

The M., K. & T. will run an excursion from North Jefferson to Sedalia on August 4th, Emancipation day, when it is expected that more than one thousand colored people will visit the city.

Frank Sims, a former Missouri Pacific engineer of this city, is now sticking type on the Topeka Journal. He has taken the Keeley cure, married a good woman and is getting along nicely.

The Bourbon County (Kas.) Farmers Alliance yesterday resolved to boycott the Kansas City, Fort Scott & Memphis road because of its bringing United States deputy marshals to Fort Scott during the strike.

General Manager Doddridge, of the Missouri Pacific-Iron Mountain, has issued a circular appointing Gen. Supt. H. G. Clark, of the Missouri Pacific, as general superintendent of the Kansas City Northwestern.

The Fort Scott railroad men who lost their positions by the recent strike have, with a few exceptions, left that place. They have scattered over Missouri and Kansas, and a few have gone to California and Colorado.

Conductor Pat Boughan, of the Missouri Pacific out of Great Bend,

Kas., is here for a visit with his many Sedalia friends. Pat was caught by the First National bank failure and has about reached the conclusion, he says, that he is "a soft snap for everybody."

Yesterday General Superintendent Broughton, of the Chicago and Eastern Illinois, arrived from the west on the Vandalia with sixteen engineers and firemen to take the place of strikers at Brazil, Ind. The men were escorted under guard of United States deputies to the round house, when they were immediately put to work.

Yesterday at Waco, Texas, Joe McMillan, a stranger, said to be an ex-Coxeyite, was stealing a ride on a Missouri, Kansas and Texas freight train, when he was ordered off by brakeman J. B. Stalker. McMillan made fight, and stabbed Stalker, inflicting a dangerous wound. McMillan was placed in jail, and Stalker was sent to the railway hospital at Alvarado, Tex.

The Big Four and Illinois Central are taking quick and effective action on their employes that engaged in the late unpleasantness. Nineteen firemen, eight brakemen and a number of boilermakers who took a very active part in the Big Four strike in Urbana, Ill., have received notice that their services are no longer needed, and most of them immediately started elsewhere in pursuit of jobs.

Arthur A. Ackerman, an American engineer, employed on the Interoceanic railroad, in old Mexico, has been tried and sentenced to ten months' imprisonment for accidentally causing his engine to run over and kill a Mexican laborer. The accident occurred two years ago, and Ackerman has been confined in prison ever since. United States Minister Gray has been appealed to by the prisoner.

Ed Holloway, the young Big Four train wrecker, made two additional statements yesterday. During the afternoon he went to the coroner and signed a statement that he had done the whole job himself; that he had no confederates and had himself broken the switch lock with a coupling pin and thrown the switch, and that nobody was with him. Last night he said he was coerced into making both confessions, and that he had nothing to do with it at all. Holloway is not a member of the A. R. U. or any other organization.

It is rumored that the M., K. & T. and the American Express company intend to reduce operating expenses, says the Parsons Sun, by consolidating the work of the express messenger and baggageman, and having one man on each train, with the assistance of a helper, do all the express and baggage work. Messengers receive \$75 and baggagemen \$65 per month, or a total of \$140. By consolidating the expenses of each crew could be reduced at least \$35 per month, which would make a total saving to the companies of several thousand dollars in the course of the year.

The Wabash roadmen who have had headquarters here for the last few months, says the Moberly Democrat, are the nicest lot of men the company ever had in its employ. No town in the state, in all probability, has as excellent a group of roadmen. But a number of these are to go away now. The bright, young, sociable firemen, 80 in number, have not been applying for places, and about 25 clever brakemen, with a few conductors and several engineers, old residents here, will seek other fields. "It is with regret the people of Moberly see these men go—even the officials of the road who have been doing their best to thwart their efforts as strikers seem sorry to see them go, now."

A Matter of Fact.

When you buy clothing, groceries, hardware, or, in fact, anything, you naturally patronize people you have confidence in; those who have always been honest with you, have given you the worth of your money. It should be the same in the circus business. You should patronize those you have the utmost confidence in. Sells Brothers have the confidence of the amusement-loving public, because they always fulfill their promises. They give what they advertise—the greatest show on earth at the reduced price of twenty-five cents. See their immense railway trains of palace cars, the gorgeous parade and be convinced that it is the big show of the world.

A LOOKING GLASS.

Saves a Man From Death at a Maniac's Hands.

"Many persons who are superstitious regard the breaking of a looking glass as an omen of bad luck," said a traveler, recently, "but I had an experience once where I think that the breaking of a looking glass was the means of saving my life. I was a keeper in the state insane asylum at the time. One evening about 11 o'clock I was sitting in my room reading, when I heard the door suddenly open, and on turning around was startled to see one of the patients, a man whose mania often took a most violent form, standing in the doorway. He had always been kept under lock and key, and how he managed to get out is a mystery to me to this day."

"I tried to appear as cool as possible, and asked him what he wanted. 'I have come to kill you,' he replied, at the same time taking a pistol from his pocket, which he had gained possession of in some unaccountable manner. As he advanced toward me his eyes wandered about the room, when all at once his eyes fell upon his own image in a large mirror that hung on the wall. His whole demeanor changed in an instant, and, seeming to forget all about me, he crept to what he supposed to be another man. Suddenly, with an awful yell, he raised the pistol and fired point-blank at his image in the glass. The mirror was broken into a thousand pieces. His back was turned toward me, and in an instant I sprang upon him, and held him until help arrived, when we locked him up securely. I have always thought that glass was the means of saving my life."
